#### CUSTOMER BENEFITS

Low cost industrial printing  
 Flat head for compatibility with competitor estates  
 Cost-effective, for legacy system replacement  
 High-specification, high-through put, high-performance and extremely durable  
 Media compatibility  
 Longest ribbon in the marketplace  
 Emulation for quick & easy replacement of competitor's products  
 USB and Ethernet as standard; serial, parallel, USB host and WLAN are optional

#### Compatibility

The B-EX4T2 series is designed to seamlessly replace competitor products, using z-mode emulation to integrate into legacy software systems. Flat-head technology, left justified media and the use of inside and outside wound ribbons allows for replacement of ageing and costly to operate legacy printing estates (with easy transition from old label and ribbon stock).

#### Performance without the cost

With speeds of up to 12ips, the 4 inch B-EX4T2 range is designed for demanding industrial printing. Advanced processing power ensures not only fast output, but also efficient throughput.

#### Ribbon & media

Left-hand aligned media, with the option for inside or outside wound ribbon, ensures compatibility and competitiveness within the media marketplace. A 600m ribbon is also available, for fewer media changes and further lowering the total cost of ownership.

#### Easy maintenance

With innovative technology like double-ribbon motor control, snap-in printheads and field upgradeable options, the B-EX4T2 series continues to lower maintenance costs.

#### Protecting the environment

Green credentials include the coveted energy star program and a solvent-free ribbon, as well as delivering 'carbon zero' printing. All this, combined with the lowest power consumption in the marketplace.

#### Specialist printing

The B-EX4T2 is available in either 203/300 or 600dpi variants, allowing for specialist high resolution printing with superior print quality.
